Owners of drop off pets will not be permitted to request a specific doctor. All drop offs will be ready to go home after 3:00. Please do not ask to pick up early. The advantage to drop off service is that you do not have to wait. The disadvantage is that you do not get "face time" with the veterinarian. When you pick up in the afternoon, if you wish to speak to a doctor your record will be placed in line with the others that are waiting to be seen.
